Adaptation

In a tourist daycare, adaptation methods differ from those typically used, as children attend for a short period, usually only a few days.

However, we recommend that parents start with a half-day based on our opening hours.

If possible, we allow parents to stay for a short time in the playroom with their child.

To respect both the child and the group, the daycare reserves the right to refuse a child who has not adapted to the structure after 2 half-days.

5. Daily life

Rules of daily life

The child's attendance and duration of care are recorded on the daycare's website.

Parents must provide a complete change of clothes for the child, as well as a pair of slippers, outdoor clothing (snowsuit, hat, gloves, snow boots), and a sleeping bag. Parents must also provide, if needed, the child's comfort objects (e.g., blanket, pacifier). They agree to label their child's clothing with their name.

Pillows and blankets are not allowed.

Diapers are provided by the parents. Changes will be done using Gifrer oligo-limestone liniment.

Les parents acceptent l'utilisation de ce produit en acceptant ce règlement.

Parents agree to the use of this product by accepting these regulations.

Meals

Meals and snacks are provided by the daycare.

Families must provide infant formula and the bottle. The formula powder should be placed in separate, unwatered doses. The quantity, along with the child's full name, must be written on the doses.

In case of allergies or specific diets, meals and snacks must be provided by the parents. These should comply with the current regulations set by health services (packaged foods that can be stored at room temperature; no opened food will be accepted).

In the case of breastfeeding, a dedicated room will be available for the breastfeeding mother and her child. This space will provide them with privacy for this moment.

Parents who wish to can bring breast milk to the daycare, following a strict protocol (attached to these regulations).

6. Safety and medical provisions

Children must be up-to-date with the mandatory vaccinations according to the French vaccination schedule (Decree of 25/01/2018, Annex 8). The mandatory vaccinations are as follows:

- | | |
|------------------|-------------------|
| • Diphtérie | Tétanos |
| • Poliomyélite | Hib |
| • Hépatite B | Coqueluche |
| • Rougeole | Oreillons |
| • Rubéole | Méningocoque ACWY |
| • Méningocoque B | Pneumocoque |

Safety

The child can only be picked up from the daycare by the legal guardians or individuals listed on the child's registration form, upon presentation of an ID.

No child will be handed over to a minor.

Parents must pick up their child before the daycare closing time (5:00 PM). In case of a delay, parents must notify the daycare staff by phone at least 15 minutes before closing time. If parents do not show up, the police will be called.

After two delays, the child will no longer be accepted at the daycare.

Access to the daycare is secure. Parents must ring the bell before entering and close the entrance door behind them.

To prevent accidents, jewelry, pacifier clips, and small toys are not allowed.

Child's health

A child with a fever will not be accepted.

If a child shows symptoms of an infectious or viral illness (fever, vomiting, diarrhea), parents must pick up the child immediately.

Any health issue concerning the child must be reported upon arrival.

In accordance with the medical protocol, the staff may administer prescribed medications based on a valid, personalized prescription.

In this case, the treatment must be provided by the family in its original packaging and labeled with the child's name and the opening date.

Medications are stored in a location inaccessible to children. The administration of the treatment is recorded in a register and in the computer transmission file (child's name, date, time, medication name, dosage, healthcare professional's name).

In case of an emergency, no medication will be administered, except for children with an Individual Support Plan or a specific prescription.

Non-prescription medications will not be administered.

In the case of childhood or contagious illnesses, the child may only return to the daycare upon presentation of a medical certificate.

Accident prevention and risk

In the event of an accident occurring within the facility, the responsible person will inform the parents. In an emergency situation, the responsible person, or the designated person in their absence, will determine the necessary actions, including contacting emergency services if needed.

7. Responsibility

Parents' responsibility

The physical presence of the legal guardian or the authorized person accompanying/picking up the child releases the responsible person and the staff from their responsibility toward the child.

Les Fripouilles' responsibility

The daycare is not responsible for any loss or theft of personal items brought by the children.

The facility has insurance coverage to cover its liability concerning the children cared for and its staff.

8. Annexes

You will find the following mandatory protocols attached to this document:

- Emergency Protocol
- Care Protocol
- Hygiene Protocol
- Safety Protocol
- Departure Protocol: We do not offer outings outside the facility; therefore, no departure protocol is provided.
